This course helps students develop English language skills through the exploration of current events from around the world. Students will also learn effective news presentation techniques, including summarizing articles, organizing information, and delivering clear, engaging oral presentations.

Broad Edge Letters

Explore the world of broad edge calligraphy in our Broad Edge Letters course! This course will focus on the uncial script – an ancient script used by the Greek and Latin scribes from 4th - 8th century. Students will learn to use a specialized calligraphy pen, the broad pen, and use it to write the uncial script. Join us and transform alphabets into a canvas for creativity and self-expression.

If you do not have the patience to practice writing for an entire class, this class is not for you.
