HUNGER ON THE RUN

餐二乙

游忠翰

In Africa, a lot of people stay with hunger, they may die because of insufficient food. Therefore, someone sets up an organization. Hunger on the Run. People who work on this organization will raise money and donate it to Africa. For example, one dollar can save three people. Hopefully, we can save hundreds of people if everyone do this donation. In addition, there are two forms of activities in the organization; one is Twelve Hours and the other is Thirty Hours, No matter what activity you have joined, you may understand the feeling of hunger. after the so-called “hunger experience.

One time , when I was browsing on the Internet, I saw an impressed photos with an African child who has been hungry to crawl. Unfortunately, there is a vulture watching at the child, waiting for him, and eating him. When I saw this picture, I was very sad. Because the food was seriously deficient, the child was killed. However, in many places, lots of people just don’ t know how to cherish the food and always waste it. Through the shocking photo, I realize the importance of assisting poverty children and cherishing foods.

Environment and poverty are the main reasons for famine. Although we can not control the environment, we can reduce the incidence of abnormal weather. To do this action, famine situation may be lessened. As a senior high school student, I can not donate a lot of money to assist those people in famine situation. But I will remember to attend Twelve Hours activity. Most importantly, I will keep grateful heart, cherish food, and care more people who need help .
